Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The objection to the specification is withdrawn in view of applicants' representations in the reply of February 24, 2005, to the effect that the information incorporated by reference to certain patent documents in the instant specification is not essential material as set forth in MPEP 608.01(p).

A method of fastening or holding cargo using film having the physical properties specified in claims 8 and 9 is not taught nor fairly suggested in any of the prior art documents located or identified to date. Accordingly, claims 8-14 are deemed to define allowable subject matter and are passed to issue.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
